Explain:

### Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Open Mobile's compliant handset models are publicly identified for consumers. Compliant models are listed on Open Mobile's website, which also includes a complete explanation of the hearing-aid ratings and capabilities. Also Open Mobile educate its retail sales people regarding digital wireless capabilities and hearing-aid compliance.

### Methodology for Functionality Levels

Open Mobile's handset offering are divided into five (5) categories considering their characteristics, features and retail prices. These categories go from a Low Tier category to a Smartphone category. Each category and category subdivision is assigned a letter and a number based on functionality levels and hearing-aid capabilities. Categories range from A1 to E6. For example, the Low Tier handsets are A1 for those handsets rated at least M3 but not T3, and A2 those handsets rated T3 and M3. For Medium and higher categories, functionality levels are assigned accordingly.
